EXPERIENCE

Software Developer
Procube

📅 Jan 2024 – Jan 2025   📍 Kozhikode, India

- Led frontend development of an ERP dashboard with Next.js, Ant Design, and Axios, boosting user engagement by 25% and reducing load times by 30%.
- Proficient in Next.js, Ant Design, Axios, React.js, and Tailwind CSS for UI development and API integration, with expertise in Next.js middleware for data management.
- Built and maintained a scalable T3 stack application, enhancing data processing speed by 35% and improving system stability.
- Developed interactive portfolio websites with Next.js, GSAP, and Sanity, increasing visitor retention by 50% and improving SEO rankings by 10%.
- Designed and implemented RESTful APIs using Fastify in Node.js, optimizing backend performance and reducing response time by 20%.

Mobile App Developer
Office Kit HR

📅 Jan 2022 – Dec 2023   📍 Kozhikode, India

- Enhanced an HR app with new screens, optimized for iOS and Android, and reduced API calls for faster check-ins and check-outs, improving overall performance and user experience.
- Utilized Redux for state management, ensuring consistent and efficient handling of application state across multiple screens.
- Integrated Axios for seamless API communication, enabling dynamic data fetching and smooth user interactions within the app.
- Managed and coordinated weekly releases on Play Console and Apple Developer, ensuring timely updates and maintenance for both platforms.
- Troubleshot and resolved issues using Xcode to maintain app performance and stability.

Java Developer
M2H

📅 Dec 2021 – Jan 2022   📍 Kozhikode, India

- Collaborated with cross-functional teams and documented workflows to support ongoing development and maintenance.
- Worked with SQL queries and ensured data integrity in Microsoft SQL Server for enhanced application performance.
- Refactored Java Spring MVC and Hibernate components to improve code readability and maintainability.
- Identified and resolved bugs in a fintech application to ensure reliable financial transactions and user experience.
- Resolved UI issues in Sencha ExtJS-based enterprise applications, including fixing dropdown overflow and other broken UI components, improving user experience and overall application stability.

PROFILE

As a Frontend Developer and Mobile Developer with 2.5 years of hands-on experience, I've built fast, responsive web and cross-platform mobile applications. I specialize in React.js, Next.js, and React Native, and have delivered scalable ERP dashboards, interactive portfolio websites, and modern user interfaces. With a Full Stack Developer mindset, I'm confident working across the entire development cycle — from API integration and release management to writing clean, maintainable code that performs and scales in production.

ACCOMPLISHMENTS

🏆 **ERP Dashboard Optimization**
Improved system load speed by 30% through efficient frontend architecture and API handling in Next.js.

📱 **HR App Performance Boost**
Reduced check-in latency and optimized API calls, enhancing mobile user experience across platforms.

⚙ **Cross-Platform Development**
Built and maintained scalable applications using the T3 stack and React Native, improving stability and maintainability.

</> **Interactive Portfolio Delivery**
Developed modern portfolio websites using Next.js, GSAP, and Sanity, increasing visitor retention by 50%.

EXPERIENCE

Frontend Developer - Part Time

Nexwave, Kerala

📅 Jan 2021 – Nov 2021   📍 India

Data Analyst Intern

Xena Intelligence, Kozhikode, Kerala

📅 Dec 2020 – Feb 2021   📍 India

Freelance - Frontend

Creative Merchant, Kochi, Kerala

📅 Jan 2025 – Mar 2025   📍 India

Freelance - Fullstack

Teacherium, UAE

📅 Apr 2025 – current   📍 India

AREAS OF EXPERTISE

</> Technical Skills

- Frontend: React.js, Next.js, TypeScript, Tailwind CSS, Ant Design, GSAP, Framer Motion, Redux, React Query, Zustand, React Hook Form, Vite, Webpack, Figma.
- Mobile: React Native, Expo, Redux, Xcode.
- Backend: Node.js, NestJS, Express.js, Prisma, Appwrite, Supabase.
- Database: PostgreSQL, Mongo DB.
- Tools & DevOps: NGINX, cPanel, Play Console, Apple Developer, AWS, Vercel, Netlify, NEON DB.
- Version Control: Git, GitHub, GitLab, Bitbucket, Jira,

⚙ Professional Skills

- Crafted modular React components and custom hooks for complex web applications, emphasizing reusability and consistent UI behavior across multiple views.
- Mastered state management patterns across Redux, Context API and React Query, eliminating prop-drilling and data synchronization issues
- Transformed wireframes into pixel-perfect interfaces using Tailwind's utility-first approach paired with Ant Design's component library.
- Optimized frontend performance through code splitting, lazy loading, and memoization techniques that reduced initial load metrics by 40%.
- Implemented responsive design frameworks and WCAG accessibility standards, ensuring inclusive interfaces that function seamlessly across devices.

👥 Soft Skills

- Effective Communication and Team Collaboration
- Leadership in Cross-Functional Teams
- Time Management and Task Prioritization
- Problem-Solving and Debugging

CORE COMPETENCIES

Component Architecture

State Management

UI/UX Implementation

Frontend Performance Optimization

Responsive Web Design

Cross-Platform Development

API Integration   Frontend Testing

JavaScript/TypeScript

React Ecosystem

Single-Page Applications

Design System Implementation
